

JOB DESCRIPTION

Position: Equipment Mechanic

Reporting to: Shop Supervisor

Byler Quarries is seeking an experienced mechanic with heavy equipment knowledge. A minimum of 3 years' experience is preferred. Mining background a plus.

Who we are and what we offer:

Byler Quarries began in 2019 with the acquisition of Fiddlers Elbow South Quarry. The quarry is rich with limestone, and we are continuously extracting materials to fulfil our customers' needs. We will not only be providing limestone, but other standard PENNDOT construction materials and ready-mixed concrete from our newly established plant as well.

Our professional team at Byler Quarries is committed to providing the area with quality products and outstanding customer service. We look forward to establishing Byler Quarries within the surrounding communities and watching our new company grow!

We offer our employee's highly competitive base pay, paid time off, holiday pay, boot reimbursement, comprehensive benefit programs such as medical, dental, vision, short-term disability, long-term disability, voluntary life insurance, accident insurance, critical insurance, 401K with a company match, employee assistant program, and paid training.

Mechanic Qualifications:

- Must be self-motivated and committed to continuous improvement.
- Must have working knowledge of diesel engines, hydraulics, electronics, welding / fabrication and MSHA regulations.
- Must be able to lift 50 lbs.

Mechanic Requirements:

- High school diploma or GED required.
- Posses a valid PA driver's license.
- Three years of mining related experience preferred.
- Ability to work in outdoor and indoor environments.
- Must be able to clearly communicate and follow instructions.
- Ability to work overtime / flexible schedule.
- Candidate required to provide own tools.

Salary Range: Determined by experience and past work history.
